

UPGRADING OLDER ADULTS' DIGITAL COMPETENCES to improve their social inclusion and development

project number:
2019-1-PT01-KA204-060701

DIGITALISE ME

Co-funded by the
Erasmus+ Programme
of the European Union

Erasmus+

DIGITALISE ME Project

started in 2019 to help adult trainers and seniors improve their digital skills by supporting them in having a fully active and participative social life.

Ensuring that older people have the opportunity to take an active part in the society is very important to make our societies more inclusive.

What have we achieved so far

The project's consortium had worked hard in the first half of the year to meet the proposed objectives of the project.

1

Mapping of Basic Digital Competences

Seniors from Portugal, Spain, Italy, Cyprus, Poland and Romania were involved in our research as follows:

- More than 120 seniors answered our questionnaires that aimed to diagnose the digital and ICT competences they are lacking and
- More than 18 seniors participated in our face-to-face or online interviews that aimed to determine the areas of their daily lives they encounter more challenging in term of technological applications.

The results obtained from this research are summarized in a comparative report. This report gives us a sense on how to structure the course materials and the online platform that will be available until the end of the project.

2

Digital Living Basics Pack

Partners joined their knowledge and resources to create a database including recommendations and solutions to show how to address the real needs of older adults in the field of Digital and ICT competences. This interactive database will be available in the online platform.

3

„Basic Digital Skills for social and civic active participation” blended course

Based on the mapping of digital competences the framework and methodology of the blended course was already designed.

The 6 modules that will form the blended course are:

- Information and Data Literacy
- Communication and Collaboration
- Digital Content Creation
- Safety
- Problem Solving
- Media Literacy

If you would like to improve your digital skills and competences and to participate in “Digitalise Me” course, we invite you to stay in touch with us, using the following online web and Facebook page:
